

PAPERLESS WORKFLOWS WITH BLUEBEAM

Tighter budgets. Shorter timelines. Designing, engineering, and building are more challenging than ever. So Bluebeam Revu evolved to keep you a step ahead. Revu 2018 fits seamlessly into existing workflows, helping you access and share critical project information more efficiently—and complete your projects faster.

Revu 2018 is made for today's design and construction projects. Discover one of three versions: Standard, CAD, and eXtreme.

NEW FEATURES IN BLUEBEAM REVU 2018

Intuitive Interface

Revu 2018 is designed to be aware of what you're doing, presenting the tools you're most likely to need based on your input. Like the new dynamic Properties Toolbar, which keeps the most commonly used features and commands right at your fingertips.

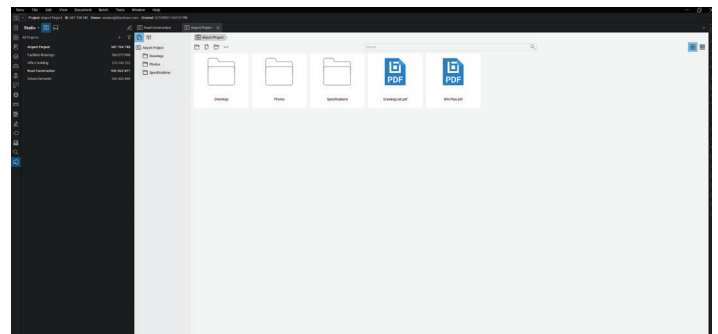

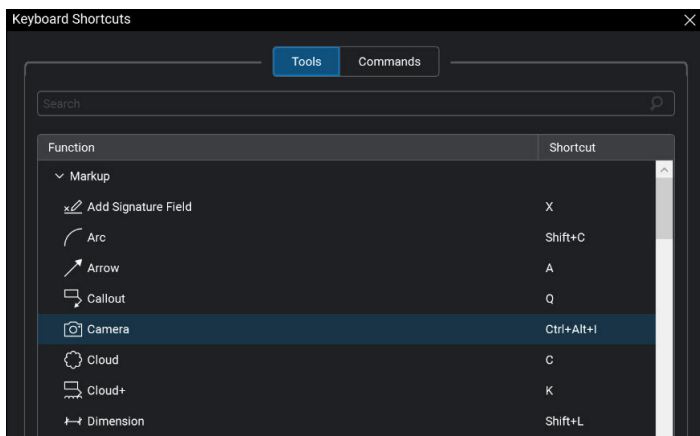

Simple Navigation

Revu 2018 has shortened the path from point A to points B, C, D and beyond.

Improved panel views stay out of your way and leave more room for documents and drawings, so you don't have to waste time rearranging your workspace.

Revu's Studio Projects now let you access files across multiple Projects at once, with a new dashboard-style interface to see everything you're working on.

Need an even shorter path? Now you can add custom keyboard shortcuts to export and share with your whole project team. Because in this business, no one has time for extra clicks.

Get up to Speed Faster

The technology learning curve just got flattened. With new video tutorials, pre-loaded tool sets, and sample files to jump-start new Revu users, your whole project team will spend less time training and more time getting the job done. And even Revu power users just might learn a few new tricks.

GET STARTED

Get started with the latest version of Bluebeam Revu today or ask about your upgrade options by contacting our team at bluebeam@uscad.com or call (877) 648-7223.

Please view the next page for an overview of the key features available in each version of Bluebeam Revu 2018.

WHICH VERSION IS RIGHT FOR YOU?

Revu Standard

The PDF solution for Windows desktop and tablet users who want to create, edit and markup PDF files. Includes Bluebeam Studio™ for real-time document-based collaboration.

Revu CAD

The enhanced PDF solution for CAD users working on a Windows desktop or tablet that includes direct plugins for AutoCAD®, Revit®, Navisworks® Manage, Navisworks Simulate, SolidWorks® and SketchUp® Pro. Convert any IFC or U3D file to PDF with ease. Revu CAD also has direct integration with SharePoint® and ProjectWise®, and includes Bluebeam Studio™ for real-time document-based collaboration.

Revu eXtreme®

The ultimate edition of Revu includes all of the same PDF creation, markup, editing and collaboration capabilities found in Revu CAD, as well as OCR+, PDF form creation, Scripting, Structures™, Batch Link®, Batch Slip Sheet and Redaction.
