

Unlock the Power of Your Autodesk Application with an Enterprise CADLearning Center

CADLearning provides forward-thinking organizations and software users with high-quality, expertly created content delivered when they need it, where they need it. Your Enterprise CADLearning Center gives your Autodesk users the flexible support they need to:

- Learn a new software program
- Solve a specific design problem
- Identify and address knowledge gaps
- Prepare for Autodesk Certification

If you have 25 or more Autodesk users, an Enterprise CADLearning Center is the perfect learning solution for training and performance support whether you're:

- Evaluating a new hire
- Training employees at varying skill levels
- Trying to eliminate downtime and support calls
- Training department- or company-wide on a new application

Your Enterprise CADLearning Center will:

- Be customized to fit the look and feel of your organization's brand
- Provide 24/7/365, on-demand access to course content for over 50 of the most popular Autodesk applications, searchable by topic
- Contain interactive exercise files to practice and help retain newly learned skills
- Offer dynamic assessments to identify and address knowledge gaps
- Allow you to create customizable, drag-and-drop playlists to structure lessons in any order and combination you choose.

Enterprise CADLearning Centers even allow the creation and integration of custom materials, custom courses and custom assessments.

See how your own Enterprise CADLearning Center can maximize productivity for your Autodesk users today!
Email info@uscad.com or call us at (877) 648-7223 to schedule a demonstration and set up your 30-day pilot.
